The Bible and Genetics

February, 7th, 2015

INTRODUCTION

Gen. 1:28B

...have dominion over the fish of the sea, and over the fowl of the air, and over **every living thing** that moveth upon the earth.

The reason of all Biological wonder is the Genetic Code formed by God!

Ps. 139:16
...in **thy book**
[The human
genome!] all
my members
were written...

- “The more I study nature, the more I stand **amazed at the work of the Creator**. Into His tiniest creatures, God has placed extraordinary properties ...”

Louis Pasteur (1822-1895)

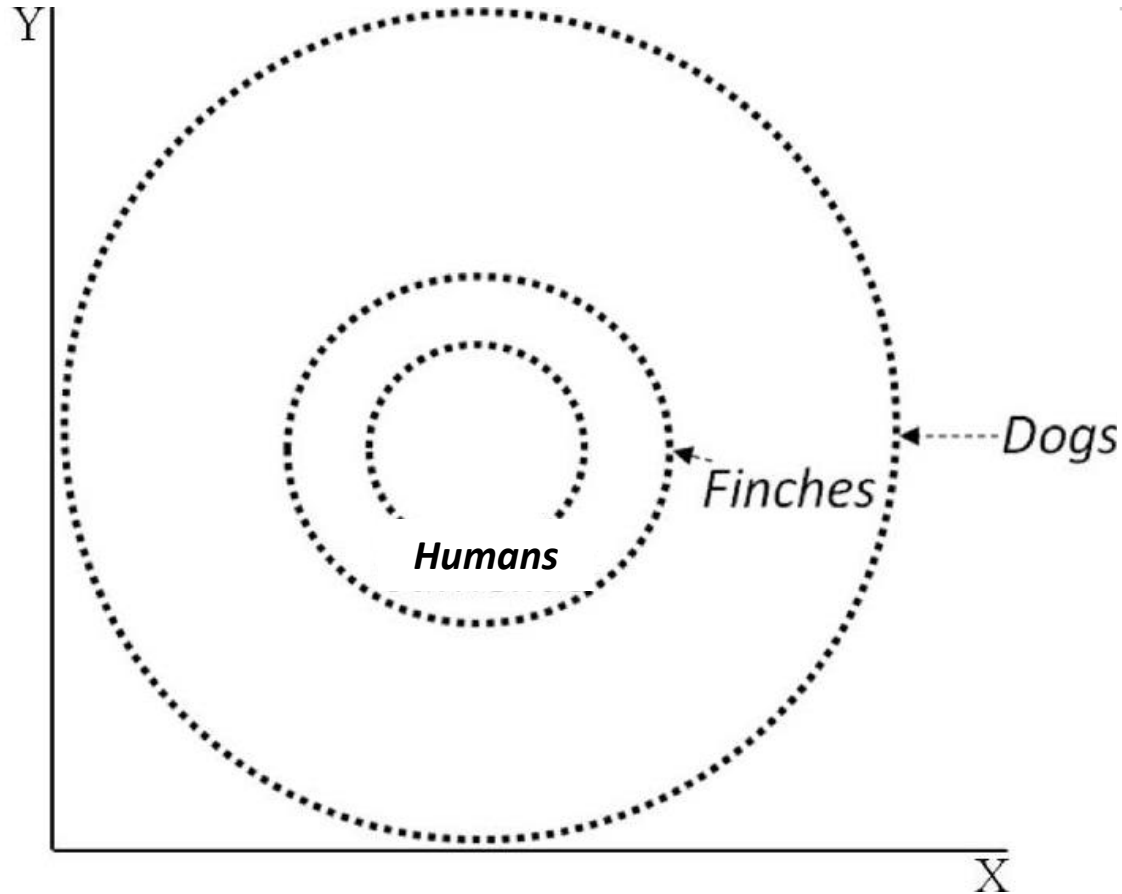

John Hudson Tiner, *Louis Pasteur - Founder of Modern Medicine*, Milford, MI: Mott Media, Inc., 1990, p.75.)

-
- “... species are fixed with **limits beyond which they cannot change.**”

Gregor Mendel (1822-1884)

Versuche über Pflanzen-Hybriden (1865)

Castro-Chavez, F. The Rules of Variation Expanded, Implications for the Research on Compatible Genomics. *Biosemiotics* 2011:1-25. URL: <http://www.ncbi.nlm.nih.gov/pubmed/21743816>

Gen. 1 - Life only originates from LIFE

The good research of Louis Pasteur demonstrated that “Spontaneous Generation” is false, an event

necessary for the myth or fantasy of the Darwinian Evolution for the origin of life; with Pasteur’s demonstration, he founded the whole field of microbiology, starting with his discovery of bacteria decomposing chicken broth.

Mankind

Homo sapiens

3 – GENETICS OF STERILE HYBRIDS AND OF AUSTRALOPITHECUS

4 – THE GENETICS OF JESUS CHRIST

1 – GENETICS AND NATURE: PLANTS AND ANIMALS

Gen. 1:11

And God said, **Let the earth bring forth grass, the herb yielding seed, and the fruit tree yielding fruit after its kind [min], whose seed is in itself, upon the earth:** and it was so. [In the 3rd Day.]

Variation: A change within the boundary of compatibility producing a fertile offspring.
Example of Plants

Origins of Variation: Change

Contrary to the clear and simple **kind** [min] of the Bible, Charles Darwin left a rampant confusion in Biology to this day:

“Nor shall I here discuss the **various definitions** which have been given **of the term species**. No one definition has as yet satisfied all naturalists; yet every naturalist knows **vaguely** what he means when he speaks of a **species**... The term '**variety**' is almost **equally difficult to define**... I look at the term **species** as one **arbitrarily** given, for the sake of **convenience**, to a set of individuals closely **resembling each other, and that it does not essentially differ from the term **variety****...”

Even contradicting his erroneously “exchangeable” uses of the terms **species** and **variety**, Darwin entitled his chapter and his book as:
Darwin, C. Chapter 2: **Variation** Under Nature. **On the Origin of Species**, 1859.

The three main **Abominations** of the **Darwinian Theory of Evolution**:

1. Darwin [through his disciple Thomas Huxley], attempted to **kick God out** of God's own Creation in the minds of men (by forbidding supernatural explanations in science),
2. Darwin [through his disciple Thomas Huxley] wrongfully assumed that **inorganic atoms** were able to organize themselves to **produce life** (the abiogenesis or spontaneous generation),
3. Darwin wrongfully assumed that **through millions of years**, one kind of organism can be transformed into another totally different, time without end (**descent with modification**).

Gen 1:11 - Compatible organisms produce fertile offspring

Mendel's Seven F ₁ Crosses on Pea Plants							
	Seed Shape	Seed Color	Seed Coat	Pod Shape	Pod Color	Flower Position	Plant Height
♀ ♂ 100%	 Round	 Yellow	 Gray	 Smooth	 Green	 Axial	 Tall
P	X	X	X	X	X	X	X
	 Wrinkled	 Green	 White	 Constricted	 Yellow	 Terminal	 Short
	↓	↓	↓	↓	↓	↓	↓
F ₁ 100%	 Round	 Yellow	 Gray	 Smooth	 Green	 Axial	 Tall

Gregor Mendel demonstrated that heredity follows a precise mathematical, statistic and probabilistic pattern, by crossing diverse varieties of peas and learning **dominance**, starting the field of genetics.

Gen. 1:20-21a

And God said, **Let the waters bring forth** abundantly the moving creature that hath **life** [soul, nephesh], and fowl *that* may **fly above the earth** in the open firmament of heaven. And God **created** [bara, bring out of nothing something new: the soul!] great whales [monsters of the sea], and every living creature that moveth, **which the waters brought forth abundantly**, after their **kind** [min]...

Orcinus orca

**Variation: A
change within
the boundary of
compatibility
producing a
fertile offspring
Example of
Dolphins**

False Killer Whale (*Pseudorca crassidens*) 'Dad dolphin'. Although misnamed as "whale", this is just **a big dolphin**

Bottlenose Dolphin
(*Tursiops truncatus*)

'Mom dolphin'

Daughter
dolphin,
misnamed as
"Wolphin"

God Designed Life to be Adaptable to Different Environments, and to Display a Beautiful Diversity

Gen. 1:24

And God said, **Let the earth
bring forth** the living
creature after its **kind** [min],
cattle, and creeping thing,
and beast of the earth after
its **kind** [min]: and it was so.

Variation: A change within the boundary of compatibility producing a fertile offspring.
Example of Canis

Variation: A change within the boundary of compatibility producing a fertile offspring.
Example of Llamas

Variation

Lama glama

Lama guanicoe

Vicugna vicugna

Lama pacos

Gen. 6:20

Of fowls after their **kind** [min], and of cattle after their **kind** [min], of every creeping thing of the earth after its **kind** [min], two of every *sort* shall come unto thee, to keep *them* alive.

2 - GENETICS AND HUMANS: MAN AND WOMAN

Gen. 1:26a

And God said, Let us make man in **our image**, after **our likeness...**

1 Thes. 5:23

And the very God of peace sanctify you wholly; and *I pray God* **your whole spirit and soul and body be preserved** blameless unto the coming of our Lord Jesus Christ.

Gen. 1:27

So God **created** [bara, something unique and new: the spirit!] man in His *own* image, in the image of God **created** [bara] He him; **male** [zakar, with prominence] **and female** [neqebah, with orifice] **created** [bara] He them.

Gen. 2:7

And the LORD God **formed** [yatsar, from previous materials] **man of the dust of the ground**, and breathed into his nostrils the breath of life; and man **became** [was made, asah] a living **soul** [nephesh].

**Variation: A
change
within the
boundary of
compatibility
producing a
fertile
offspring.
Example of
Humans**

The mechanisms of molecular quality control prevent changes out of control within DNA, proteins, and organisms

Each molecule was designed with a defined molecular quality control mechanism

Gen. 2:21b-23

...and **He** [God] took one of his ribs, and closed up the flesh instead thereof; and the rib, which the **LORD God** had taken from man, made **He** a woman ...And Adam said, This *is* now bone of my bones, and flesh of my flesh: **she shall be called Woman**, because she was taken out of Man.

Ish = Man

Aleph

א

Outer surface of bone

Red marrow

Yellow marrow

Gen. 2:22b
 ...made He
 [God] a
 woman...

Gen. 2:24-25

Therefore shall a **man** leave his father and his mother, and **shall cleave unto his wife: and they shall be one flesh.**
And **they were both naked, the man and his wife, and were not ashamed.**

Humans have 46 chromosomes in all their cells except in the reproductive cells, where they have only 23 chromosomes

3 – GENETICS OF STERILE HYBRIDS AND OF AUSTRALOPITHECUS

Lev. 19:19a

Ye shall keep my statutes. Thou shalt not let thy cattle gender with a diverse kind [kilayim, two kinds] (NIV: “Do not mate different kinds of animals”)...

Tiger (32) +
Lion (38) =
Tigon (35?)

Lion (38) +
Tiger (32) +
= Liger
(35?)

Another quality control: If non-compatible groups mate, the male product is always sterile (a different number of genes)

Donkey (62) + Horse (64) = Mule (63)

Horse (64) + Donkey (62) = Hinny (63)

Donkey (62) + Zebra (44) = Zonkey (53?)

A group of organisms cannot produce, no matter how much time intervenes, a totally different group of organisms that is genetically incompatible to its original kind or prototype

Imaginary “common ancestor of chimps (**48** chromosomes) and men”

Man: **46** chromosomes

In this famous mythological oversimplification, Darwinian Evolution deliberately forgets **women**! Identical “mutations” supposed to “transform the species”, should also be occurring in **women**!!! The probability for this to happen, due to our molecular quality control mechanism and repair molecular systems is **ZERO**!

Krings *et al.* "Neandertal DNA sequences and the origin of modern humans". *Cell* 1997. 90 (1): 19–30.

Possible origin of *Australopithecus*, etc.:

Humans have 46 chromosomes, the great apes (Chimpanzee, Bonobo, Orangutan, Gorilla) have 48

A sterile hybrid (i.e., *Australopithecus*) could have been the product of humans and great apes...

Ex. 22:19

Whosoever lieth with a beast shall surely be put to death.

Lev. 20:15-16

And if a man lie with a beast, he shall surely be put to death: and ye shall slay the beast. **And if a woman approach unto any beast**, and lie down thereto, thou shalt kill the woman, and the beast: they shall surely be put to death; their blood *shall be* upon them.

Deut. 27:21

Cursed *be* he that lieth with any manner of beast. And all the people shall say, Amen.

Lev. 18:23-24

Neither shalt thou lie with any beast to defile thyself therewith: neither shall any woman stand before a beast to lie down thereto: it *is* confusion. Defile not ye yourselves in any of these things: for in all these the nations are defiled which I cast out before you...

Prov. 2:10, 16-19, 22

When **wisdom** entereth into thine heart,
and knowledge is pleasant unto thy
soul... [it will] **deliver thee from the
strange** [zuwr, adulterous] **woman**
...For her house **inclineth** [sahah] unto
death, and **her paths unto the dead**
[Rephaim]. None that go unto her return
again, neither take they hold of the
paths of life... **the wicked shall be cut
off from the earth**, and the
transgressors shall be rooted out of it.

For those workings of evil, two options: **1)** Either heathen humans (male and female) had constantly sex with a similar group of apes per region, to raise a small population of hybrid sterile beings (i.e., *Australopithecus*), or, **2)** That in a similar way that God cloned a man's cell to obtain a woman, the fallen angels may have attempted to counterfeit and to mock the divine conception (Gen. 3:15) by producing a temporary human/ape "offspring" (*Neanderthal*, etc.)...

The evidence indicates that *Neanderthals* appeared near or within human settlements!

Science 328, p. 681, 7 May 2010.

4 – THE GENETICS OF JESUS CHRIST

Lk. 1:35 [Mt. 1:20]

And the angel answered and said unto her, **The Holy Spirit shall come upon thee, and the power of the Highest shall overshadow thee: therefore also that holy thing which shall be born of thee shall be called the Son of God.**

	Flower color	Flower position	Seed color	Seed shape	Pod shape	Pod color	Stem length
P	Purple  ×  White	Axial  ×  Terminal	Yellow  ×  Green	Round  ×  Wrinkled	Inflated  ×  Constricted	Green  ×  Yellow	Tall  ×  Dwarf
F ₁	 Purple	 Axial	 Yellow	 Round	 Inflated	 Green	 Tall

In the Wisdom of God, He had in His right hand, not only the way to define the sex of the promised seed (**a man**, by the Chromosome Y, normally under male progenitor control), but also **the dominance** of all the genes, to make the savior **perfect** (with innocent, pure and clean blood or genes, as Adam and Eve's were before their fall), covering thus genetic deficiencies present in the complementary genes of Mary.

Heb. 2:14-17

“Forasmuch then as the children are [full] **partakers** [koinoneo] of flesh and blood, he also himself likewise **took part** [metecho] of the same... For verily he took not on *him the nature of angels*; but he took on *him* the seed of Abraham [in Mary’s ovule, in the flesh]. Wherefore in all things it behoved him to be made like unto *his brethren*...”

**As Adam was
before his fall...**

**...so Jesus needed to
be, a human member
of the same flock (of
the mankind)**

Mary provided the egg and its 23 chromosomes. God provided within her egg the 23 chromosomes corresponding to the sperm, including the Y chromosome

23 imperfect chromosomes
In Mary's egg, the **metecho**,
the part that
was in Jesus!

23 perfect and
dominant
chromosomes
formed by God,
included the
chromosome Y

46 chromosomes in Jesus

Jn. 1:14 [Zech. 12:10]

And the Word [Logos, Truth of God] was made flesh, and dwelt among us, (and we beheld his glory, **the glory as of the only begotten** [monogenous] **of the Father**,) full of grace and truth.

Jesus was the only begotten in the genetic sense that he was and will be the only one conceived in such way! With dominant Chromosomes (male Y included) formed by God within the ovule of Mary!

Because of Jesus and after Jesus, we that believe in him as our Living Lord, we also became the children (sons and daughters) of God by God creating spirit within us!

In conclusion, **the divine conception of Jesus** was that God formed the perfect complementary dominant genes that covered those recessive ones present in Mary, including God's creation of the Y Chromosome, responsible to produce a male baby.

Eccl. 3:11a

He [God] hath made every *thing* **beautiful** in its
time!
